

ROAD CLOSURE DETOUR PLAN

The Intersection of Johnson Street and U.S. 41 (Cleveland Avenue)

Lee County

The Florida Department of Transportation (FDOT) wants you to be aware of an upcoming road closure for City of Fort Myers utility work on U.S. 41 (Cleveland Avenue) in Lee County. Crews will be replacing existing city water mains across U.S. 41 just south of Downtown Fort Myers. The work will begin in the northbound lanes and continue across the southbound lanes. This work is part of the Cleveland Avenue Pedestrian Safety Project. Directional signage will be in place to help direct traffic around the closure and through the detour routes. Work will begin the night of Friday, June 2, 2023 and will continue through Saturday, June 3, 2023.

The construction schedule may change due to weather or unforeseen circumstances.
